Mr. Timothy J. Moore
2054 183rd Street
Homewood, Illinois 60430

CERTIFIED MAIL - #PO4 9037031

Dear Mr. Moore:

Recently we received a report of a pollutant discharge resembling laundry waste occurring from a plastic pipe at 1301 North Clay. This property is apparently a rental home and investigation has shown that you are the owner of this home. Personnel from the city's Water Pollution Control Section made an inspection of the discharge and this inspection revealed that a washing machine is tributary to a floor drain in the basement and the floor drain is in turn tributary to Clay Street. This practice is perfectly acceptable for uncontaminated storm water or ground water; however, laundry waste must be disposed of through an approved waste disposal system or the sanitary sewer. Please be advised that the discharge of pollutants is in violation of City, State and Federal Law, and a violation of City Health Ordinances. Steps should be taken to eliminate this discharge by placing it into the sanitary sewer within (30) thirty days. This office maintains periodic surveillance throughout the corporate limits of the city and will inspect for compliance at the end of the thirty (30) day period and will take proper legal action if compliance is not met.

If you have any questions or we may be of any assistance, please do not hesitate to call us at 417-864-1924.

Yours truly,

J. Randall Lyman
Water Pollution Control Inspector III
Surveillance & Enforcement
